

PS-903 Roller Shutter Reed Switch Contact

With Steel Armored Cable

FEATURES

PS-903 is a unique patented reed switch contact with steel armored cable suitable for under concrete floor mounting, which combines high stability detection. This provides the user with exceptional all round performance and unrivalled operational features and reliability.

SPECIFICATION

Model	PS-903
Sensor	Magnetic switch
Sensing Distance	50 mm
Alarm Output	2 wires normally closed, opens on alarm
Operating Temperature	-20 to 50 ⁰ C
Casing	ABS in silver color
Standard	BS
Dimension (WxHxD)	38x88x12 for contact, 40x40x88 for magnet
Weight	350 g
